Art Unit: 1614

Claims 1-9 are presented for examination.

The amendments and remarks filed on December 22, 2004 have been received and entered. Claims 1-9 are rejected under 35 U.S.C. 103 as being unpatentable over Lee et al. for the reasons set forth on pages 2 and 3 of the office action of September 22, 2004.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that Lee et al. does not teach the use of the IGFBP-3 in a therapeutically effective amount for the treatment of lung cancer. Applicant is reminded that the rejection is an obviousness rejection and not anticipation. The prior art clearly teaches the use of the claimed compound as an agent which causes apoptosis and inhibits growth of non-small cell lung cancer. Therefore, it would have been obvious to a person skilled in the art to use such compound for the treatment of lung cancer. The determination of optimum proportions or amounts or determination of the route of administration I considered to be within the skill of the artisan. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-9 are properly rejected under 35 U.S.C. 103.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 1614

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
